Akabo - your partner for sustainable, customisable clothing in Luxembourg. Fair fashion is a priority for us and respect for ethics is a core concern at Akabo. Our clothes are eco-responsible and made in India. We source directly from our producers and partners, without going through intermediaries, and we make regular visits to their workplaces to ensure personal follow-up. Our approach is 100% transparent: we know the entire production chain of our products and can therefore guarantee that they are produced in fair and environmentally friendly conditions.

Our t-shirts, polo shirts and sweatshirts are Fairtrade and GOTS certified, which means they are ethically and environmentally friendly. We only use organic cotton, grown without pesticides. We make no compromises on quality and ethics. Akabo offers customisable, beautiful, and sustainable B2B clothing!

Akabo is an ethical clothing brand, which is why all our products are Fairtrade and GOTS certified. With these certifications we can guarantee the highest ethical standards.

Fairtrade Cotton

Fairtrade certification guarantees fair working conditions and fair pay for workers in emerging and developing countries. Products bearing the Fairtrade label contribute to sustainable development and the fight against poverty. Fair trade practices support small producers and improve ecological standards. Consumers who buy Fairtrade products are actively helping to improve living conditions around the world.

Global Organic Textile Standard

The Global Organic Textile Standard (GOTS) is an international label that guarantees the highest standards in textile production. The materials we use are organically grown, without the use of pesticides or other chemicals. GOTS-certified products are environmentally friendly, socially responsible and guarantee consumers that they are choosing ethically produced clothing.
